September 22, 1986

Dear Barry,

Thank you very much for coming to Poughkeepsie and presenting the MVS-VM environment at the CTA. You have really done some exciting things which give us some real insight as to how MVS-VM should work together in the future.

The day was very valuable to us and will definitely help us formulate our future plans for VM-MVS interrelationships.

Looking forward to seeing you again sometime at SHARE.
Thanks again.

Sincerely,

Robert C. Barnett
Manager of Operating Systems
